The FTS Evaluation Toolkit provides simple, straightforward information about how to design and implement evaluations of school gardens and other farm to school activities.

The FREE five week webinar training series will guide you through the evaluation process and provide you with knowledge and tools to implement evaluations of your FTS programs.

Each webinar will cover specific sections of the Evaluation Toolkit, including:

- 1) Getting Started on your Farm to School Evaluation
- 2) Outcomes, Indicators, and Measures
- 3) Choosing and Adapting Tools
- 4) Collecting and Analyzing Data
- 5) Reporting Results

Toolkit development was supported by
The Colorado Health Foundation

The training series is supported by a
USDA Farm to School Grant

Additional Opportunities

Continuing Education Credits

Participants who successfully complete the five week series can receive five contact hours of continuing education credits through the Commission on Dietetic Registration.

Peer-to-Peer Learning

All participants on webinars can join the FTS Evaluation Toolkit online forum to share experiences and learn from each other as they implement their evaluations.

Free Technical Assistance

The first 20 sites that have completed the training and developed their evaluation plan are eligible to receive four hours of FREE technical assistance from Spark Policy Institute.

The FTS Evaluation Toolkit is a product of the Colorado Farm to School Task Force.
