

Annual Food & Farm Policy Champion Awards

Description

Since 2016 Roots of Change (ROC) has been co-hosting an annual **Food Champion Award event** in Sacramento to **honor legislators** who are creating a more climate-smart, just, healthy and resilient food and farming system.

This event is also where the annual **Food & Farm Scorecard** is released to the public. Originally created by ROC and the California Food Policy Council (CAFPC), the annual scorecard is now produced by the California Food & Farming Network (CFFN) which works with 50 allied organizations to both nominate legislators and tally votes to determine the champions.
